2021-2022 Season Outlook: The team is very optimistic about the 2021-2022 season and believes we are capable of making a run in the post-season. Since last year we've brought in two classes of new talent. From the start, the team has bonded and formed strong chemistry. The depth of our roster is special and makes our offense and pitching rotation very hard to beat. The team enjoys being together on and off the field and it shows in the way we play and perform. As senior leaders who have been to the World Series before we understand what it takes and there is no doubt that this team has the talent to go all the way. As we approach the Spring season we hope to continue the success we've had this fall and expect to have a lot of fun while doing it.

Manager Quote: “Family doesn’t mean blood fellas. Play for every brother alongside you on this team. Play for all the people who can’t. Play with passion and heart to make your ‘why’ proud.”

2021-2022 Season Outlook: After missing last season due to Covid, the Penn State Friends Club is ready to return to contending for the Region crown in 2022 with a senior-heavy group that we believe can stack up with anyone in the nation in terms of talent. This is a tight-knit team that has been patiently waiting for their chance to try and bring home a third World Series trophy to Happy Valley, and we feel we are ready this season to make those dreams a reality.

Manager Quote: "With everything this club has gone through these past 2 years, having an extremely senior heavy lineup not only gives this squad the motivation, but the leadership needed to make some noise this season. You can feel the excitement everytime we step on the field just being able to once again do what we love. This team is different because it has something that can't be taught: Chemistry both on and off the field, which all successful teams need. Every game needs to be treated like it's our last, because looking in the past you never know when that might be. The conference is tough, no question about it, but with our roster, filled top to bottom with raw talent, you better believe we are here to bring that trophy home this spring. -Head Coach Cam Medic.

2021-2022 Season Outlook:

After graduating two classes of players without a tryout due to COVID, we had no idea what this team was going to look like coming into this year. However, we picked up twelve great guys at tryouts and with a lot of team bonding we quickly found our team identity. We're a bunch of guys who just want to play baseball! This team is constantly having fun and with that comes a feeling that we always have the energy to win a game even when we're behind, and that we have done a few times.

Many of our returners are pitchers, including a veteran starting staff (Lodewick, Kalentek, Molloy) that has given up 12 ER in just over 40 innings of the 53 innings we have played. Our biggest new addition comes with Jon McNelis, a utility guy who has played almost everywhere on the field for us this year, racking up 15 hits, 5 SBs, 5 RBIs, and 7 runs in just 7 games. However, it is not even close to a one man show at UConn as everyone has come up clutch at the plate across the fall and strung hits together as a team.

Manager Quote:

“In a word, the UConn Huskies are ELECTRIC. Every player brings the heat, whether its veterans like Alex Kalentek and Ben Lodewick with their fiery pitching, or newcomers like Brian Hance and Jon McNelis raining clutch hits every game. You don’t just see it in our stats (3.057 ERA, .376 BA, and .479 SLG), you see it in our players’ attitudes and how we hype eachother up for every play. Our 7-0 streak isn’t a record, it’s a stepping stone. Go Huskies!” - Team Manager, Ben Chan
