2026 Spring Season Outlook:

Stepping into a new season after a disappointing finish in the spring, we have a lot of players returning that have improved over the summer and fall. We also have some new guys that have come in and made an immediate impact on our team. Our bullpen has drastically improved and we have much more depth on our bench. We hired Camden Hull as our new coach this year as well. He is a young coach with a lot of knowledge of the game and has adjusted well to the culture of our team after spending some years playing college ball. Our first NCBA series of the year is against our rival, NC State, which is going to be an exciting series. We are also traveling to face a competitive Tennessee squad at the beginning of March.

Manager Quote:

Going into the spring, I feel confident in the work the guys have put in during the fall. We have a great group of guys who love the game of baseball and competing day in and day out. As a first year head coach I'm looking forward to navigating through the season and putting our guys in the best position to be successful. Go Pirates!

2026 Spring Season Outlook: With huge pitching additions to the starting rotation and bullpen, this NC State team will be very difficult to beat in a 3-game series. There is no weak link in the pitching staff. Strong additions to the infield look to clean up the defensive errors from the previous season. Losing important power bats from last year will be difficult to replace, but a strong incoming class is determined to fill these holes in the lineup. This team is a strong candidate for a College World Series run.
